Your well·being solution

Giorgio Burgalassi

(C.E.O. Snep SpA)

OUR PASSION

I am proud to introduce you the **SNEP products**.

The realization of the company SNEP is the dream of my life, and the dream included a set of outstanding products. During this time, with the cooperation of **top quality and experienced** staff, we created the best, safest and most important products for the well-being of everybody.

Our philosophy is - and will always be - to bring people products that have a real ability to **help one's daily requirements**, in order to **maintain and / or improve their fitness**. Our production includes a range of products that can help people to control their weight: those products can be integrated with their diet, and beneficial drinks to improve their moments of relaxation. They are produced with the treasures that the earth offers us, exclusively not GMO.

As an italian, I am proud to present you, in this catalogue, a set of products made

by italian factories, which demonstrate (in case we needed it) that in Italy we also know how to do things well, without having to import products from overseas. Particular attention was reserved to prices, that you will find very interesting: we tried to get **affordable and accessible prices**, while maintaining the same quality value that always must distinguish us.

Lastly, I personally invite you to follow the advice and support that our Distributors can give you. They are the ones in charge of the communication with our costumers, and is just through them that we want to bring those products into the homes of everyone. You can take advantage of the experience of our Distributors, who will follow you in your choices, with due care. You can also use the after-selling service, that our Distributors will provide for free.

I thank you for choosing our products, and please accept my best regards.

WE ARE SNEP

We at SNEP have only one goal: to offer our customers the **best products** and the **best service**.

We strongly believe in research and development, to bring to the market only the **highest quality and most efficient products**, in full compliance with European regulations and Italian laws. We constantly define **extremely high production safety standards**.

Ethics, transparency and quality are the key words in the selection of our partners, rigorously chosen in our area, and from whom we only expect the best, in order to offer the whole market all the excellence of **"Made in Italy"**.

The effort to get to the final product implies work which is often invisible from the outside, a complex and careful study to achieve the excellence, and it is followed in a constant and analytical way by our technical scientific staff, who works to achieve higher

production quality standards and certifies the effectiveness of everything we bring to the market.

We operate in every possible way for our customers well-being.

All of our products, food, meal replacements, supplements, but also beauty, body care, and environmental health products, are designed and formulated to ensure our **consumers' satisfaction**.

We leave nothing to chance.

Because at Snep we always want more. For us and for our customers.

SNEP

Your well•being solution

WEIGHT CONTROL

Ever more frequently, we are subjected to the hectic and stressful pace of everyday life, no longer paying attention and dedicating time to eating well and staying fit, which leads many people to have an excessively high body weight.

A balanced diet rich in vegetables, fruit, cereals, dairy products and fish is necessary to achieve an optimal combination of nutrients; however, many people often end up choosing an unsuitable diet that is unable to provide the ideal daily nutrient intake.

This is the reason why we created SNEP PLUS, the meal replacement that can help you control your weight and stay fit by providing healthy nutrient support for long-lasting mental and physical well-being. A healthy, balanced diet is essential for controlling and losing weight.

Our SNEP PLUS meal replacement can help you limit your calories intake, providing at the same time all the nutrients you need: high-quality minerals, fibers, carbohydrates, and proteins.

Men and women who want to lose weight and stay in shape, find in SNEP PLUS a very effective ally. Healthy and balanced foods, combined with a healthy lifestyle, is the best we can offer to our body to stay healthy.

Why use SNEP PLUS:

- It contains only and exclusively CERTIFIED quality ingredients.
- It contains 100% natural ingredients.
- Its ingredients do not originate from GMO cultures

SNEP PLUS CONCRETELY HELPS YOU TO MANAGE YOUR WEIGHT AND HELPS YOU TO ACHIEVE BETTER OVERALL MENTAL AND PHYSICAL PERFORMANCE.

"I think having land and not ruining it is the most beautiful art that anybody could ever want."

Andy Warhol

Based on microorganisms, this probiotic detergent is perfect for cleaning the entire house. Organic, with no toxic effects for our health, it naturally combats pathogenic germs, unpleasant smells and allergens, for a healthier and cleaner environment.

"The combination of approximately 80 microorganisms is capable of decomposing organic matter in a way that promotes life"

Teruo Higa

per ogni ambiente.

BIOEFFECTIVE - GARDEN

CHOOSE YOUR
LANGUAGE

Item 600500

BioEffective GARDEN is a concentrated *Bacillus inoculum* useful for restoring the microbial balance of plant surfaces. It can also be used to restore the microbiological conditions of production residues directly in the field, helping to colonize surfaces and preventing pathogenic organisms from finding favorable environmental conditions. *Bacillus* species are widely known for their ability to produce useful metabolites such as lytic enzymes, organic acids and stimulating molecules, as well as for their ability to colonize spaces, occupying them and preventing the proliferation of harmful microorganisms.

BioEffective GARDEN is a useful tool in intensively cultivated environments, where the spread and contamination of pathogens is common and usually eliminated with costly treatments that are risky for the environment. Colonizing plant surfaces and soil with beneficial microorganisms maintains the environment in optimal conditions and improves productive capacity and vitality.

BIOEFFECTIVE

BIOEFFECTIVE - HOME

CHOOSE YOUR
LANGUAGE

Item 600400

BioEffective HOME is a multi-purpose cleaner effective in biologically degrading grease and other types of dirt from washable surfaces. The active components of the product act on dirt residues by degrading them and ensuring long-lasting cleaning and deodorizing performance.

Thanks to its low foaming properties, rinsing is not necessary. All components of the formulation are completely biodegradable, making product disposal easier and minimizing the risks of accidental spills. Each application adds new enzymes to treated surfaces, prolonging hygiene and environmental cleanliness.

The enzymes and other active ingredients have been selected to be usable on a wide range of materials and effective on residues of both organic and inorganic origin.

BIOEFFECTIVE - COMPOST

CHOOSE YOUR LANGUAGE

Item 600600

The BioEffective COMPOST product is obtained from the integration of recent developments in biotechnology with innovations from nanotechnology research in the field of Nanotechnology.

The product is used to activate composting and stabilization processes of organic residues, plant material from vegetable gardens and gardens, as well as for the treatment of septic tanks and sewer systems to help prevent bad odors, scaling and maintenance costs.

REVERSE OSMOSIS

The reverse osmosis process doesn't act like a simple filter. It's the only system capable of eliminating 95%-99% of toxic substances, viruses, and bacteria, making your tap water as pure and light as spring water.

HYDROGENATOR

A true innovation in the field of hydrogenation. Designed to produce water with a high concentration of hydrogen without altering its pH.

EXTERNAL FILTER

Presence of an external filter, for impurities up to 5 microns that, in addition to microfiltration, protects the entire system. Replaceable filter for self-maintenance thanks to its external position, which makes maintenance easier.

Hydropura is installed under your sink by a professional installer, who will analyze your water.

HYDROPURA FILTER

CHOOSE YOUR
LANGUAGE

Item 90550

HYDROPURA FILTER

The filter should be replaced approximately every 5,000/6,000 liters and in any case at least once a year. If the machine remains unused for more than 20 days, filter replacement is suggested.
